

## **ADAPTIVE SPORTS, RECREATIONAL EQUIPMENT AND SEATED INTERFACES**

*Tom Hetzel, PT, ATP*

**Ride Designs**

This workshop will discuss the therapist and vendor role in the assessment, application, fit, delivery and follow-up of adaptive sporting equipment for the disabled athlete to the recreational weekend warrior. The presentation will focus on the sporting equipment and human interface as it relates to the prevention of musculoskeletal injury and pressure sores and how to enhance performance and the ability to participate in race and recreational activities for people at all levels of ability.
